

# 4800LN Series

Interconnected Lockset

## performance meets style

### introduction

The Yale® 4800LN Series Interconnected Locksets combine our key-in-lever locksets with the added safety and security of a deadbolt. From the inside, both the latchbolt and the deadbolt are retracted simultaneously in a single motion for a quick and easy egress. The 4800LN Series is ideal for multi-family dwellings, assisted living facilities, office and light-duty commercial use.

### A.D.A.

The 4800LN Series meets accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility Standards and ANSI 117.1, all requiring ease of accessibility for the handicapped.

### backset

The 4800LN series is available with a 2-3/4" or 2-3/8" backset.

### cylinders

Lockset furnished standard with Yale 1812 6-pin cylinder and deadbolt furnished standard with 1814 6-pin cylinder. Optional Yale® KeyMark® cylinders available.

### deadbolt

The 4800LN Series is standard with a Yale face removable deadbolt. This unique feature allows quick re-keying without disassembly.

### door thickness

Adjustable for doors 1-3/8" to 2".

### fire listings

4800LN Series Locksets are UL listed for use on fire doors for up to 90 minutes.

### handing

Handing must be specified on Madrid 4855LN.

All other designs/functions are furnished RH. They can be changed to LH in the field by reversing the inside and outside levers.

### installation

4800LN Series Interconnected Locks use a 4" center to center dimension and conform to ANSI/BHMA Specifications A156.115 which cover hardware preparations for steel doors and steel frames and A156.115-W which cover hardware preparations for wood doors with wood or steel frames.

### strikes

Lockset - T-Strike (Model 371) standard. Also available in full lip configurations.

Deadbolt - 541 standard, 542 optional.

### warranty

The 4800LN series carries a four-year mechanical warranty. See Yale Price Book for warranty information.

### windstorm

Certified (refer to local codes).

### patented keyway cylinders **Yale® KeyMark®**

For those applications requiring patented key control, Yale's KeyMark® line of patented keyway cylinders provides the ultimate protection against unauthorized key duplication. Yale® KeyMark's utility-patented Security Leg® keyway features increased resistance against picking and impressioning and can easily retrofit into existing systems. For further details and availability, refer to the separate Yale KeyMark catalog.

## strikes

- Yale® 4800LN series locksets are supplied standard with Model 371 and Model 541 strikes.
- 606 finish locksets are supplied with 605 finish strikes, and 626 finish locksets are supplied with 625 finish strikes. All other finish locksets are supplied with matching finish strikes.
- All strikes are located on the same vertical and horizontal center lines as the latchbolt and deadbolt.
- All strikes are reversible.

## lockset

**Model No. 371** Supplied standard with 4800LN Series Locksets. 1-1/4" curved lip supplied standard. 1", 1-1/2", 1-3/4" and 2" curved lip lengths available by special order. Wrought strike box supplied.

**Model No. 70S Optional Full Lip Strike Square Corner**  
With full lip anti-rattle tab.

**Model No. 71S Optional Full Lip Strike**

1/4" Round Corner Radius. Similar in dimensions and function to the 70S Strike but with radius corners for easy mortising by power tools. Anti-rattle tab.

## deadbolt

**Model No. 541 Deadbolt Strike**  
Supplied standard with 4800LN Series Locksets.

**Model No. 542 Deadbolt Strike**  
Optional

## sample specification

All locksets shall be 4800LN Series Interconnected Lever Locksets.

All locksets shall have a simultaneous retraction of latchbolt and deadbolt with a single motion of turning the lever handle.

Locks shall have an interlocking tubular chassis and latchbolt. Chassis mounting screws shall be concealed and accessible only when the levers and roses are removed.

The latchbolt shall have a 1/2" (13mm) throw and shall include a deadlocking feature to inhibit manipulation when the door is locked.

All locksets and latchbolts shall be non-handed for ease of installation.

All locksets shall be adjustable for 1-3/8" (35mm) and 2" (51mm) door thickness.

Levers shall operate independently and shall have inside and outside lever return springs to prevent lever sag.

Lever handles shall be a minimum of 4-3/4" (121mm) in length and shall provide a minimum of 2-1/8" (54mm) clearance from surface of door to the inside of the lever at the midpoint.

Outside levers on keyed locksets shall be removable only when the designated key is in the cylinder.

All locksets shall be furnished with two keys. All cylinder plugs shall be brass and furnished with 6-pin chambers for master keying capabilities.

Cylinders shall be easily removed without disassembling the lockset.

All locksets shall accept Yale® KeyMark® patented keyway cylinders as an option.

### Certification:

UL 1-1/2 Hour Fire Rating

ANSI A117.1 Accessibility Code

Windstorm Certified (refer to local codes)

All locksets shall carry a four-year mechanical warranty.
